Legislative Counsel's Digest:

Existing law requires the State Board of Health to adopt regulations for the licensing of persons to: (1) receive, possess or transfer radioactive materials and devices; and (2) engage in certain other activities relating to radioactive materials. (NRS 459.201) **Section 9** of this bill authorizes the Division of Public and Behavioral Health of the Department of Health and Human Services to suspend, revoke or amend such a license or registration of a person who violates any provision of statute or regulations governing radioactive materials or radiation.

Sections 22-51 of this bill add a new chapter to NRS governing the licensing and regulation of persons who engage in radiation therapy and radiologic imaging. **Section 32** of this bill exempts physicians, physician assistants, dentists, dental hygienists, dental assistants, chiropractors, chiropractor's assistants, certain persons training to engage in the practice of chiropractic, podiatrists, veterinarians, veterinary technicians, certain persons working under the supervision of a veterinarian or veterinary technician and persons engaging in mammography from such licensing and regulation. **Section 72.3** of this bill exempts podiatry hygienists and persons training to be podiatry hygienists from such licensing and regulation if the State Board of Podiatry adopts regulations prescribing the conditions under which such persons may engage in radiologic imaging and radiation therapy. **Sections 62 and 63** of this bill authorize a podiatry hygienist to take and develop X-rays without obtaining a license to engage in radiation therapy and radiologic imaging under certain conditions before the effective date of such regulations. **Sections 72.6 and 73.5** of this bill make conforming changes.

Section 35 of this bill prohibits a person from engaging in: (1) radiologic imaging unless he or she has obtained a license or limited license from the Division; or (2) radiation therapy unless he or she has obtained a license from the Division. **Sections 54 and 55** of this bill clarify that a practitioner of respiratory care or homeopathic assistant is prohibited from engaging in radiation therapy or radiologic imaging unless he or she holds a license or limited license. **Section 75** of this bill requires the Division to issue a license or limited license, as applicable, to the scope of practice of the person, to any person who is performing radiation

therapy or radiologic imaging as part of his or her employment on or before January 1, 2020, and registers with the Division. The holder of a license or limited license issued pursuant to **section 75** would be required to comply with all requirements to renew the license or limited license, including requirements for continuing education, as if the license or limited license were issued pursuant to **sections 22-51**.

Sections 36 and 37 of this bill prescribe the qualifications for obtaining a license or a limited license. **Section 37** also establishes the types of limited licenses that may be issued. **Sections 38 and 39** of this bill provide for licensure by endorsement of persons who hold licenses in another state that correspond to a license to engage in radiation therapy and radiologic imaging or a limited license to engage in radiologic imaging. **Sections 40 and 50** of this bill provide for the denial or suspension of a license or a limited license if the licensee is delinquent in child support payments, in conformance with federal law. **Section 41** of this bill authorizes certain holders of a license to engage in radiation therapy and radiologic imaging to practice as a radiologist assistant. **Sections 2 and 65** of this bill authorize the holder of a license to engage in radiation therapy and radiologic imaging or a person training to obtain such a license to take certain actions with regard to drugs to the same extent as was previously authorized for a radiologic or nuclear medicine technician or trainee. **Section 3** of this bill makes a conviction of certain crimes involving dangerous drugs grounds for the suspension or revocation of a license to engage in radiation therapy and radiologic imaging.

Section 42 of this bill authorizes: (1) an unlicensed person to engage in supervised radiation therapy or radiologic imaging without compensation for the purpose of qualifying for a certification that is a prerequisite for a license or limited license; or (2) a license to practice outside the scope of his or her license under supervision for the purpose of qualifying for a certification that is a prerequisite for being licensed. **Section 42** also authorizes the Division to issue a temporary student license, which authorizes an unlicensed person to engage in radiation therapy or radiologic imaging for compensation for the purpose of qualifying for certification that is a prerequisite for being licensed.

Sections 44 and 45 of this bill prescribe the required qualifications to perform computed tomography and fluoroscopy, respectively. **Section 43** of this bill authorizes unlicensed persons who register with the Division and meet certain other requirements to take X-ray photographs at certain federally-qualified health centers or rural health clinics. **Section 43** also authorizes a person who is employed performing computed tomography or fluoroscopy to continue to do so without obtaining a license from the Division if he or she registers with the Division and meets certain other requirements.

Existing law prohibits a person from operating a radiation machine for mammography unless the person holds a certificate to do so or is a licensed physician or physician assistant. (NRS 457.183) **Section 4.5** exempts an applicant for such a certificate who also holds a license to engage in radiation therapy and radiologic imaging from the requirement to pay an application fee. **Section 6** of this bill makes a conforming change.

Section 47 of this bill authorizes the Division to: (1) enter and inspect any private or public property for the purpose of enforcing the provisions of this bill governing radiation therapy and radiologic imaging; and (2) request any information necessary to ensure that persons engaged in radiation therapy and radiologic imaging meet applicable requirements. **Sections 19 and 47** of this bill provide for the confidentiality of such information and reports of inspections. **Section 48** of this bill: (1) prescribes the grounds for disciplinary action against a holder of a license or limited license; and (2) authorizes a person whose license or

limited license has been revoked to apply to the Division for reinstatement after 2 years. **Section 49** of this bill requires the Division to: (1) investigate a complaint filed against a licensee; and (2) provide a licensee against whom disciplinary action may be imposed with the opportunity for a hearing. **Section 51** of this bill authorizes the Division to seek an injunction to prevent a violation of provisions of this bill governing the licensing and regulation of persons who engage in radiation therapy or radiologic imaging. **Sections 35, 41, 44 and 45** make it a misdemeanor to engage in radiation therapy, radiologic imaging or other activity for which a credential is required without the proper credential.

Section 33 of this bill creates the Radiation Therapy and Radiologic Imaging Advisory Committee to advise the State Board of Health, the Division and the Legislature concerning radiation therapy and radiologic imaging. **Section 34** of this bill requires the Board to adopt certain regulations relating to radiation therapy and radiologic imaging, including regulations defining the scope of practice for radiologist assistants and the holders of licenses and limited licenses. **Section 34** requires those standards of practice to be at least as stringent as those adopted by a national professional organization designated by the Board and recommended by the Committee. **Section 33** requires the Committee to recommend a national professional organization for that purpose.

Existing law requires the Legislative Committee on Health Care to review each regulation that certain licensing entities adopt which relates to standards for the issuance or renewal of a license. (NRS 439B.225) **Section 1** of this bill adds to the regulations reviewed by the Committee relating to the standards for the issuance of a license to engage in radiation therapy or radiologic imaging and a limited license to engage in radiologic imaging.

Existing law prohibits the Division from issuing or renewing the registration of a radiation machine unless the applicant attests that the radiologic technicians and nuclear medicine technicians employed by the applicant have knowledge of and are in compliance with certain guidelines for the prevention of transmission of infectious agents. (NRS 459.035) **Section 8** of this bill deletes those provisions and instead requires the operator of a radiation machine to be properly licensed and in compliance with the provisions of this bill concerning radiation therapy and radiologic imaging or be exempt pursuant to **section 32**. **Section 35** requires a person to have knowledge of and be in compliance with guidelines for the prevention and transmission of infectious agents.

Sections 10-18, 20, 52, 58 and 64-72 of this bill make conforming changes to treat holders of licenses and limited licenses similarly to other providers of health care in certain respects.

payments, the interval between payments, and the number of payments or the period of time over which payments will be made. Such payments must only be subject to modification in the event of the death of the judgment creditor. Money damages awarded for loss of future earnings must not be reduced or payments terminated by reason of the death of the judgment creditor, but must be paid to persons to whom the judgment creditor owed a duty of support, as provided by law, immediately before the judgment creditor's death. In such cases, the court that rendered the original judgment may, upon petition of any party in interest, modify the judgment to award and apportion the unpaid future damages in accordance with this subsection.

6. If the court finds that the judgment debtor has exhibited a continuing pattern of failing to make the periodic payments as specified pursuant to subsection 5, the court shall find the judgment debtor in contempt of court and, in addition to the required periodic payments, shall order the judgment debtor to pay the judgment creditor all damages caused by the failure to make such periodic payments, including, but not limited to, court costs and attorney's fees.

7. Following the occurrence or expiration of all obligations specified in the periodic payment judgment, any obligation of the judgment debtor to make further payments ceases and any security given pursuant to subsection 4 reverts to the judgment debtor.

8. As used in this section:

(a) "Future damages" includes damages for future medical treatment, care or custody, loss of future earnings, loss of bodily function, or future pain and suffering of the judgment creditor.
